

FLEGGYB BS

Your Fleggybob's name _____

Date of birth _____

Now colour in the picture to resemble your Fleggybob.

FLEGGYBOB. (say fleg-eee-bob)

Definition: A small pumpkin-sized animal with bad hair. Rumoured to live in old school attics, they appear after dark to feed on pen lids, rubbers and homework books. It is believed that Fleggybobs can make troubles disappear by gathering at midnight to sing a magic song. Those who believe they have Fleggybobs in their school experience a feeling of 'things being better in the morning'. (And pens with no lids, nibbled rubbers and the loss of homework books!)

WARNING: To be used under the direct supervision of an adult.

Not suitable for children under 36 months as small parts can cause choking.
